Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in this Draft Prospectus.*

*These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.*

### **Materiality**

*The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.*

### **INTERNAL RISKS**

- 1. The registered office of our Company is not owned by us. If we require to vacate the same due to any reason whatsoever, it may adversely affect our business operations.***

We do not own the premise on which our registered office is located. Our Company has been occupying the registered office on lease basis. The premise is owned by one of our promoter Akshay S. Mehta. Although, we believe that we have complied with all the terms of such agreement, in the event there is any breach or violation of the same, we may be required to vacate the same. Further, in any event, on expiry of such agreement, if the owner is not willing to renew the same, the aforesaid property may have to be vacated and we may be required to look for alternate premise, which we may not be able to find at terms favourable to our Company. In such an event, it will adversely affect our business operations and our financial condition.

- 2. Our business is partly dependent on factors affecting consumer spending habit that are out of our control.***

Jewellery purchases are discretionary and are often considered as luxury purchase. Consequently, our business is sensitive to a number of factors that influence consumer spending habit which includes general economic conditions, consumer confidence in future economic conditions, recession and fears of recession, consumer debt, unstable consumer income, conditions in the housing market, interest rates, inflation. Any fall in demand or a decline in the consumer spending habit could adversely affect our business, financial condition and results of operations

- 3. Any fluctuation in price and supply of raw material for the manufacture of our products, could adversely impact our income.***

Gold Bullion, diamonds, precious and semi precious stones are the primary raw materials used in the manufacturing process of gold jewellery. Price of gold is volatile in nature and is linked to the international commodity indices. Any increase in the prices of raw materials shall result in the consequent increase in the price of our products. Such increase in price of our products may adversely affect their demand. There is no certainty that such price increase will be sustainable and downward pressure on gross margins and income may occur.

4. ***We are dependent upon third parties for supply of our raw materials and any disruption in their supply could disrupt our business could disrupt our business and adversely affect our financial results.***

Gold Bullion, diamonds, precious and semi precious stones are the primary raw materials used in the manufacturing process, contributes significantly to our total raw material cost. We do not enter into any long term agreements with our suppliers and our arrangements with them are generally on short term basis. Hence, there is no assurance that in future also we will be able to source such raw materials at commercially acceptable prices, or at all. This could affect our ability to fulfill our supply commitments or to fulfill them in an economic manner, which will have an adverse effect on our business, financial condition and results of operations.

5. ***Our Company has negative cash flow in the past years details of which is given below. Sustained negative cash flow could impact our liquidity, growth and business.***

Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in the previous years as per the Restated Financial Statements and the same are summarized as under.

Particulars	As at February 28, 2017	For the Financial Year Ended March 31,		
		2016	2015	2014
Net Cash Generated from Operating Activities	(22.74)	(82.62)	(132.42)	(25.56)
Net Cash Generated From Investing Activities	2.28	(2.33)	(0.54)	(3.80)
Net Cash Generated from Financing Activities	144.05	102.10	131.68	29.04

6. ***We depend on a limited number of customers, and a loss of or significant decrease in business from them could affect our business and have a material adverse impact on our profitability.***

We have in the past and may in the future derive a significant portion of our revenue from a relatively limited number of customers that vary from year to year. Further, we currently do not have any long term contractual arrangements with our significant customers and conduct business with them on the basis of purchase orders that are placed from time to time. The loss of one or more of our significant customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business from our significant customers.

7. ***Our business requires us to obtain and renew certain registrations, licenses and permits from government and regulatory authorities and the failure to obtain and renewal of them in a timely manner may adversely affect our business operations.***

Our business operations require us to obtain and renew from time to time, certain approvals, licenses, registration and permits, some of which may expire and for which we may have to make an application for obtaining the approval or its renewal. If we fail to maintain such registrations and licenses or comply with applicable conditions, then such respective regulatory can impose fine on our company or suspend and/or cancel the approval/licenses which may affect our business adversely.

For more information about the licenses required in our business and the licenses and approvals applied for and yet to receive and approval yet to apply, please refer section "Government and other approvals" appearing on page no. 121.

8. ***We may fail to attract and retain qualified designers and craftsmen as competition for skilled personnel is intense.***

The industry in which we operate is labour intensive and our success depends in large part upon our ability to attract, hire, train and retain qualified designers and craftsmen or karigars. There is significant demand for karigars in India with skills necessary to perform the services. A significant increase in the job work charges would increase cost of

product and decrease our operating efficiency and profit margins and could lead to adversely affect financial condition and results of operations.

**9. *Our dependency on job worker for the performance of our operation may adversely affect our business.***

We are totally dependent on the job worker for the performance of our operation. We have not entered into written arrangements with any of these job workers, and there can be no assurance that these job workers will continue to be associated with us on reasonable terms, or at all. Although we work closely with these job workers, we do not exercise control over them, and our arrangements with these job workers could involve various risks, including potential interruptions to their operations for factor beyond their or our control, any significant adverse changes in their financial or business conditions, as well as low levels of output or efficiency.

**10. *We have entered into certain related party transactions and may continue to do so.***

We have entered into related party transactions with our Promoters, Promoter Group, Group Entities and Directors. While we believe that all such transactions have been conducted on the arms length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we may enter into related party transactions in the future. For details of these transactions, please refer to section titled "Related Party Transactions" at page 88 of this Draft Prospectus.

**11. *Our success depends heavily upon our Promoter, Senior Management and Key Managerial Personnel for their continuing services, strategic guidance and financial support.***

Our success depends heavily upon the continuing services of our promoters, senior management and key managerial personnel of our Company. Our Promoters and their experience and vision had played a key role in obtaining our current reputation and status in the market. We would depend significantly on our Key Managerial Persons for continuing our business operations successfully. If any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

**12. *We require a number of approvals, licenses, registration and permits for our business and failure to obtain or renew them in a timely manner may adversely affect our operations.***

We may require several statutory and regulatory permits, licenses and approvals in the ordinary course of our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time frame anticipated by us or at all. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension, delay in issuance or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled "Key Industry Regulations and Policies" and "Government and Other Approvals" at pages 63 and 121 respectively of this Draft Prospectus.

**13. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.***

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

**14. *Our insurance cover may be inadequate to fully protect us from all losses and may in turn adversely affect our financial condition.***

Our Company believes that its insurance coverage is adequate and consistent with industry standards. Our Company maintains a number of insurance policies to cover our assets, liabilities and risks that we face inherent to our business activities and operations.

Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. We cannot assure you that the terms of our insurance policies will be adequate to cover all damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. Further, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. To the extent that we suffer loss or damage that is not covered by insurance or which exceeds our insurance coverage, our results of operations or cash flow may be affected.

**15. *The requirements of being a listed company may strain our resources.***

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI (LODR) Regulations, which require us to file audited / unaudited reports periodically with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies. As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate and relevant experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner or at all.

**16. *Any changes in regulations or applicable government incentives would adversely affect the Company's operations and growth prospects.***

Our Company is also subject to various regulations. Our Company's business and prospects could be adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which would have a material adverse effect on the Company's operations and financial results.

**17. *The Promoters and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.***

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

**18. *We are dependent on third party transportation providers for delivery of raw materials to us from our suppliers delivery of raw materials to our job workers and delivery of our products to our clients. Any failure on part of such service providers to meet their obligations could have a material adverse effect on our business, financial condition and results of operation.***

Our success depends on the smooth supply and transportation of the raw materials required for our business, delivery of the raw materials to the job worker and transportation of our products to our clients, both of which are subject to various uncertainties and risks. In addition, raw materials and products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and our results of operation negatively. A failure to maintain a continuous supply of raw materials or to deliver the products to our clients in

an efficient and reliable manner could have a material and adverse effect on our business, financial condition and results of operations.

19. ***We have high working capital requirements. If we experience insufficient cash flows to enable us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.***

Our business requires a substantial amount of working capital for our business operations. We would require additional working capital facilities in the future to satisfy our working capital need which is proposed to be met through the IPO proceeds. In case of our inability to obtain the requisite additional working capital finance, our internal accruals/cash flows would be adversely affected to that extent, and consequently affect our operations, revenue and profitability.

20. ***We have not entered into any non-disclosure or confidentiality agreements with our employees or other intermediaries.***

We operate in a highly competitive industry our ability to succeed depends largely on the ability and skill of the job workers to create new and creative designs. Although, we have good terms with our employees, we cannot assure that we will have continued relation with them. Although, we believe that our designs may not be compromised, we cannot assure the same as we have not entered any non-disclosure or other confidentiality agreements with them.

21. ***Our Company does not have any listed peer companies for comparison of performance and therefore, investors must rely on their own examination of accounting ratios of our Company for the purposes of investment in the Issue.***

As of the date of this Prospectus, there are no companies which are involved in the business similar to our business, which are listed on the Indian stock exchanges and accordingly, we are not in a position to provide comparative analysis of our performance with any listed company. Therefore, investors must rely on their own examination of accounting ratios of our Company for the purposes of investment in the Issue.

22. ***Our Company has not made provision for Gratuity Payment as required under The Payment of Gratuity Act 1972. Our Company has not complied with AS-15 – “Employee Benefits” as issued by ICAI.***

Our Company has completed five years from the date of its incorporation and accordingly Payment of Gratuity Act, 1972 is applicable to our Company. Though statutorily required our Company has not made provision for gratuity payment as required under The Payment of Gratuity Act 1972 and accordingly is not in compliance with the relevant provisions of the Accounting Standard -15 “Employee Benefits”. Non-compliance with the said provisions of the Payment of Gratuity Act 1972 and Accounting Standard -15 “Employee Benefits” for the aforesaid period may invite penal action on our Company as prescribed under the relevant provisions of the Payment of Gratuity Act 1972 or otherwise. Any such regulatory action/penalty may have an adverse effect on the reputation and results of operations of our Company.

23. ***Certain qualifications have been noted by Peer Review Auditor in their report on the Restated Financial Statements.***

Our Peer Review Auditor have provided certain qualifications in their report on the Restated Financial Statements in relation to the period ended February 28, 2017 and in relation to Fiscal Years 2016, 2015, 2014, 2013 and 2012 in their audit report relating to the financial statements for our Company. For further details please refer “Financial Statements” and “Management’s Discussion & Analysis of Financial Condition and Results of Operations” on page 90 & 110 of this Draft prospectus .

24. ***We have not registered the trademarks used by us for our business and our inability to obtain or maintain these registrations may adversely affect our competitive business position. Our inability to protect or use our intellectual property rights may adversely affect our business.***

We have not applied for the registration of our logo “”. The registration of any trademark is a time-consuming process, and there can be no assurance that any such registration will be granted as and when applied. In the absence of such registration, competitors or other companies may challenge the validity or scope of our intellectual property. These trademarks are integral to our business, and the loss of any of these intellectual property rights could have a material adverse effect on our business.

Further, if any of our unregistered trademarks are registered in favour of a third party, we may not be able to claim ownership or make use of such trademarks and consequently, we may be unable to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities. Our inability to obtain or maintain these registrations may adversely affect our competitive business position. This may affect our brand value and consequently our business.

**25. *We have not entered into any long-term contracts with any of our customers.***

We do not have any long-term contracts with our customers and any change in the buying pattern of the customers could adversely affect the business of our Company. Although we have satisfactory business relations with our customers and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

**26. *Our results of operations could be adversely affected by strikes, work stoppages or increased charges by job workers.***

We are unable to assure you that we will not experience disruptions to our operations due to disputes or other problems with our job worker, which may lead to strikes, increased charges. Such issues could have an adverse effect on our business, and results of operations.

**27. *Deployment of the Issue Proceeds is entirely at the discretion of the issuer and is not subject to any monitoring by any Independent agency.***

The objects of the Issue have not been appraised by any agency. The Objects of the Issue and means of finance, therefore, are based on internal estimates of our Company. As the proceeds of the Issue will be less than Rs. 50,000 Lakhs, under the sub-regulation (1) of Regulation 16 of SEBI (ICDR) Regulations, 2009 it is not required that a monitoring agency be appointed by our Company.

However, as per section 177 of Companies Act, 2013, our Company has constituted the Audit Committee which will monitor the utilization of the Issue Proceeds.

**28. *Cancellation or reduction of orders placed by our customers can result in accumulation of excess inventory which may affect the results of operations.***

We generally place orders for our raw materials after receiving orders from our customers. Orders placed by our customers can typically be cancelled unilaterally by them with little or no notice and no compensation. If there is any cancellation or reduction in orders placed by our customers in the future, it may result in unsaleable inventory which may affect our profits and our results of operations.

## **EXTERNAL RISKS**

**29. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

The following external risks may have an adverse effect on our business and results of operations should any of them materialize:

- a change in the central or state governments or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular;
- high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins; and
- a slowdown in economic growth or financial instability in India could adversely affect our business and results of operations.

**30. *Our business is dependent on economic growth in India.***

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, economic slowdown elsewhere in the world or otherwise.

There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

31. ***Changing laws, rules and regulations and legal uncertainties in India, including adverse application of corporate and tax laws, may adversely affect our business and financial results.***

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to us and our business including those relating to the industry in which we operate. There can be no assurance that the Government of India or state governments will not introduce new laws, regulations and policies which will require us to obtain additional approvals and licenses or impose onerous requirements on our business.

For example, the new Companies Act, 2013 contains significant changes to Indian company law, including in relation to the issue of capital by companies, disclosures in offer documents, related party transactions, corporate governance, audit matters, internal controls, shareholder class actions, restrictions on the number of layers of subsidiaries, prohibitions on loans to directors, insider trading and restrictions on directors and key management personnel from engaging in forward dealing. Moreover, effective April 1, 2014, companies exceeding certain net worth, revenue or profit thresholds are required to spend at least 2% of average net profits from the immediately preceding three financial years on corporate social responsibility projects, failing which an explanation is required to be provided in such companies' annual reports.

Additionally, the Government of India has proposed a comprehensive national goods and services tax ("GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Although the Government has announced that it is committed to introduce GST with effect from April 1, 2016, given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the exact date of when GST is to be introduced or any other aspect of the tax regime following implementation of the GST. Further, any disagreements between certain state governments may also create further uncertainty towards the implementation of the GST. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.

Further, the Government of India has proposed, the General Anti Avoidance Rules ("GAAR"). The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

The impact of any changes to Indian legislation on our business cannot be fully determined at this time. Additionally, our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. Such unfavourable changes could decrease demand for our services and products, increase costs and/or subject us to additional liabilities. Any such changes could have an adverse effect on our business and financial results.

32. ***There is uncertainty on the impact of currency demonetization in India on our business.***

The Reserve Bank of India, or RBI, and the Ministry of Finance of the GoI withdrew the legal tender status of Rs. 500 and Rs. 1,000 currency notes pursuant to notification dated November 8, 2016. The short-term impact of these developments has been, among other things, a decrease in liquidity of cash in India. There is uncertainty on the long-term impact of this action. The RBI has also established, and continues to refine, a process for holders of affected banknotes to tender such notes for equivalent value credited into the holders' bank accounts. The short and long-term effects of demonetization on the Indian economy and our business are uncertain and we cannot accurately predict its effect on our business, results of operations and financial condition.

33. ***The occurrence of natural or man-made disasters could adversely affect our results of operations and financial condition.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations or financial condition, including in the following respects:

- A natural or man-made disaster could result in damage to our assets or losses in our projects, or the failure of our counterparties to perform, or cause significant volatility in global financial markets.
- Pandemic disease, caused by a virus such as H5N1, the "avian flu" virus, the Ebola virus, or H1N1, the "swine flu" virus, could have a severe adverse effect on our business.
- Political tension, civil unrest, riots, acts of violence, situations of war or terrorist activities may result in disruption of services and may potentially lead to an economic recession and/or impact investor confidence.

34. ***The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the SME Platform of BSE Limited may not develop or be sustained after the Issue. Our Company and the Lead Manager have appointed Guinness Securities Limited as Designated Market Maker for the Equity Shares of our Company. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in the SME Platform of BSE Limited, securities markets in other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

35. ***You will not be able to immediately sell any of the Equity Shares you purchase in this Issue on the SME Platform of BSE Limited.***

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after the Equity Shares in this Issue have been allotted. Approval will require all other relevant documents authorizing the issue of the Equity Shares to be submitted. There could be failure or delays in listing the Equity Shares on the SME Platform of BSE Limited. Further, certain actions must be completed before the Equity Shares can be listed and trading can commence. Investors' "book entry", or "demat", accounts with Depository Participants are expected to be credited within three Working Days of the date on which the Basis of Allotment is approved by the Designated Stock Exchange. Thereafter, upon receipt of final approval from the Designated Stock Exchange, trading in the Equity Shares is expected to commence within 6 Working Days from Issue Closing Date.

We cannot assure you that the Equity Shares will be credited to the investors' demat account, or that the trading in the Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining the approvals would restrict your ability to dispose of the Equity Shares.

36. ***There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Following the Issue, our listed Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by BSE Limited, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the BSE Limited based on the historical volatility in the price and trading volume of the Equity Shares.

BSE Limited is not required to inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell the Equity Shares or the price at which you may be able to sell the Equity Shares at any particular time.

37. ***There is no guarantee that the Equity Shares will be listed on the SME Platform of BSE in a timely manner or at all, and any trading closures at the BSE may adversely affect the trading price of the Equity Shares.***

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after those Equity Shares have been issued and allotted. In addition, we are required to deliver the Prospectus for registration to the Registrar of Companies under the Companies Act, 2013. We cannot assure you that the Registrar of Companies will register such Prospectus in a timely manner or at all. Approval requires all other relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE Limited. Any delay in obtaining the approval would restrict your ability to dispose of the Equity Shares.

The regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in Europe and the U.S. The BSE and the NSE have in the past experienced problems, including temporary exchange closures, broker defaults, settlements delays and strikes by brokerage firm employees, which, if continuing or recurring, could affect the market price and liquidity of the securities of Indian companies, including the Equity Shares, in both domestic and international markets. A closure of, or trading stoppage on the BSE could adversely affect the trading price of the Equity Shares.

38. ***Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

39. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of Equity Shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax ("STT") has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid to an Indian resident, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

40. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

41. ***There may be less information available about Companies listed on the Indian securities markets compared to information that would be available if we were listed on securities markets in certain other countries.***

There may be differences between the level of regulation and monitoring of the Indian securities markets and the activities of investors, brokers and other participants and that of the markets in the U.S. and certain other countries. SEBI regulates the Indian capital market (along with the Indian stock exchanges, which also govern the companies whose securities are listed with them) and has issued regulations and guidelines on disclosure requirements, insider trading, substantial acquisitions and takeovers of listed companies and other matters. There may, however, be less publicly available information about companies listed on an Indian stock exchange compared to information that would be available if that company was listed on a securities market in certain other jurisdictions.

#### **Indian Economy**

India has the fourth largest economy in the world by purchasing power parity. Against a background of global instability, India registered a growth of 7.6% during the financial year 2016, becoming the fastest growing major economy in the world. During the same period, macroeconomic parameters such as inflation, fiscal deficit and current account balance all exhibited signs of improvement. The financial year 2016 has also witnessed the launch of several government programs and initiatives designed to boost manufacturing, industrial growth, foreign direct investment and ease of doing business. Financial, insurance, real estate and professional services are estimated to have achieved double-digit growth for the financial year 2016. The industrial sector, broadly comprising mining, manufacturing, electricity and construction is estimated to have grown to 7.3% of India's economy for the financial year 2016 from 5.9% for the financial year 2015. <https://www.cia.gov/library/publications/the-world-factbook/geos/in.html>.

#### **Introduction**

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 6-7 per cent of the country's GDP. One of the fastest growing sectors, it is extremely export oriented and labour intensive.

Based on its potential for growth and value addition, the Government of India has declared the Gems and Jewellery sector as a focus area for export promotion. The Government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote 'Brand India' in the international market.

India is deemed to be the hub of the global jewellery market because of its low costs and availability of high-skilled labour. India is the world's largest cutting and polishing centre for diamonds, with the cutting and polishing industry being well supported by government policies. Moreover, India exports 95 per cent of the world's diamonds, as per statistics from the Gems and Jewellery Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's foreign exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

#### **Market size**

The gems and jewellery market in India is home to more than 500,000 players, with the majority being small players.

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. UAE, US, Russia, Singapore, Hong Kong, Latin America and China are the biggest importers of Indian jewellery. India's gems and jewellery exports to the US rose 7.81 per cent year-on-year during October-December 2016 due to a revival in the overall economic activity in the US.

The overall net exports of Gems & Jewellery during April-December 2016 stood at Rs 175,879.24 crore (US\$ 26.28 billion), whereas exports of cut and polished diamonds stood at Rs 113,171.17 crore (US\$ 16.91 billion). Exports of gold coins and medallions stood at Rs 25,819.48 crore (US\$ 3.86 billion) and silver jewellery export stood at Rs 18,010.72 crore (US\$ 2.69 billion) during April-December 2016. According to GJEPC, gems and jewellery exports are likely to witness a growth of about 10 per cent this fiscal due to increasing demand in the US and Europe.

According to a report by Research and Markets, the jewellery market in India is expected to grow at a Compound Annual Growth Rate (CAGR) of 15.95 per cent over the period 2014-2019.

Export of Gem & Jewellery and Cut & Polished Diamond

- Net Gems and Jewellery exports for 2015-16 was to the tune of US\$ 32 bn as compared to US\$ 36.2 bn in 2014-15
- In terms of segments, exports for 2015-16 were as follows:
  - Cut and polished diamonds: US \$ 20 bn,
  - Gold Medallions and coins: US\$ 5.2 bn,
  - Silver Jewellery: US\$ 3 bn
- The fall in exports have been due to slowdown in global economy and lack of demand for luxury good
- The export performance for current year is also expected to be under pressure, though improvement of business sentiment would exist in America, which is the world's largest consumer ; as well as 50 per cent of India's diamond jewellery production

### Investments/Developments

The Gems and Jewellery sector is witnessing changes in consumer preferences due to adoption of western lifestyle. Consumers are demanding new designs and varieties in jewellery, and branded jewellers are able to fulfil their changing demands better than the local unorganised players. Moreover, increase in per capita income has led to an increase in sales of jewellery, as jewellery is a status symbol in India.

The cumulative Foreign Direct Investment (FDI) inflows in diamond and gold ornaments in the period April 2000-September 2016 were US\$ 851.34 million, according to Department of Industrial Policy and Promotion (DIPP).

- In the Union Budget 2017-18, the Government of India, offered tax cuts for the middle class and other sections of society (5 per cent for the Rs 250,000-500,000 tax slab; which was 10 per cent initially). All these measures will drive consumption, which will be favourable to the gems and jewellery industry.
- The Government of India's proposal to cut corporate tax rates to 25 per cent for micro, small and medium enterprises (MSMEs) having annual turnover up to Rs. 50 crore (US\$ 7.5 million) will benefit a large number of gems and jewellery exporters from MSME category.
- The Government of India's announcement on establishing gold spot exchange could help in India's participation in determining gold price in the international markets.
- The demonetisation move is encouraging people to use plastic money, debit/ credit cards for buying jewellery. This is good for the industry in the long run and will create more transparency.
- The Reserve Bank of India has announced norms for gold monetisation scheme, which allows individuals, trusts and mutual funds to deposit gold with banks in return for interest, to help reduce gold imports and alleviate pressure on trade balance.
- The Reserve Bank of India (RBI) has liberalised gold import norms. With this, star and premier export houses can import the commodity, while banks and nominated agencies can offer gold for domestic use as loans to bullion traders and jewellers.
- India has signed a Memorandum of Understanding (MoU) with Russia to source data on diamond trade between the two countries. India is the top global processor of diamonds, while Russia is the largest rough diamond producer. The Government of India is planning to establish a special zone with tax benefits for diamond import and trading in Mumbai, in an effort to develop the city as a rival to Antwerp and Dubai, which are currently the top trading hubs for diamond.
- Due to shortage of skilled manpower, the Gems and Jewellery Skill Council of India is planning to train over four million people till 2022. The council aims to train, skill and enhance 4.07 million people by 2022. The council plans to tie-up with the existing training institutes including Gemological Institute of America (GIA) and Indian Gemological Institute (IGI), along with setting up of new institutes in major diamond cutting and processing centres.
- The Gem Jewellery Export Promotion Council (GJEPC) has also proposed to develop a jewellery park on Thane-Belapur Road which is around five kilometers from Mumbai with a view to boost the Mumbai-based jewellery industry by providing modern facilities and services.
- Indian Institute of Gems & Jewellery (IIGJ) Mumbai, a project of the GJEPC, has come-up with three-year Graduate Program in Jewellery Design & Manufacturing Techniques with an introduction to Management studies in collaboration with Welingkar Institute of Management.
- In September 2015, the Government of India approved the gold monetisation plan in the form of revamped Gold Deposit Scheme (GDS) and the Gold Metal Loan (GML) Scheme to mobilise tonnes of gold stored in households and temples across the country. The Union Cabinet also approved the introduction of Sovereign Gold Bond Scheme, under which gold bonds denominated in grams of gold will be issued to individuals by the Reserve Bank of India (RBI), in consultation with Ministry of Finance.

### Road Ahead

- In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

#### **Introduction**

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 6-7 per cent of the country's GDP. One of the fastest growing sectors, it is extremely export oriented and labour intensive.

Based on its potential for growth and value addition, the Government of India has declared the Gems and Jewellery sector as a focus area for export promotion. The Government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote 'Brand India' in the international market.

India is deemed to be the hub of the global jewellery market because of its low costs and availability of high-skilled labour. India is the world's largest cutting and polishing centre for diamonds, with the cutting and polishing industry being well supported by government policies. Moreover, India exports 95 per cent of the world's diamonds, as per statistics from the Gems and Jewellery Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's foreign exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

#### **Market size**

The gems and jewellery market in India is home to more than 500,000 players, with the majority being small players.

India is one of the largest exporters of gems and jewellery and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. UAE, US, Russia, Singapore, Hong Kong, Latin America and China are the biggest importers of Indian jewellery. India's gems and jewellery exports to the US rose 7.81 per cent year-on-year during October-December 2016 due to a revival in the overall economic activity in the US.

The overall net exports of Gems & Jewellery during April-December 2016 stood at Rs 175,879.24 crore (US\$ 26.28 billion), whereas exports of cut and polished diamonds stood at Rs 113,171.17 crore (US\$ 16.91 billion). Exports of gold coins and medallions stood at Rs 25,819.48 crore (US\$ 3.86 billion) and silver jewellery export stood at Rs 18,010.72 crore (US\$ 2.69 billion) during April-December 2016. According to GJEPC, gems and jewellery exports are likely to witness a growth of about 10 per cent this fiscal due to increasing demand in the US and Europe.

According to a report by Research and Markets, the jewellery market in India is expected to grow at a Compound Annual Growth Rate (CAGR) of 15.95 per cent over the period 2014-2019.

Export of Gem & Jewellery and Cut & Polished Diamond

  - Cut and polished diamonds: US \$ 20 bn,
  - Gold Medallions and coins: US\$ 5.2 bn,
  - Silver Jewellery: US\$ 3 bn
- The fall in exports have been due to slowdown in global economy and lack of demand for luxury good
- The export performance for current year is also expected to be under pressure, though improvement of business sentiment would exist in America, which is the world's largest consumer ; as well as 50 per cent of India's diamond jewellery production

### Investments/Developments

The Gems and Jewellery sector is witnessing changes in consumer preferences due to adoption of western lifestyle. Consumers are demanding new designs and varieties in jewellery, and branded jewellers are able to fulfil their changing demands better than the local unorganised players. Moreover, increase in per capita income has led to an increase in sales of jewellery, as jewellery is a status symbol in India.

- The Government of India's proposal to cut corporate tax rates to 25 per cent for micro, small and medium enterprises (MSMEs) having annual turnover up to Rs. 50 crore (US\$ 7.5 million) will benefit a large number of gems and jewellery exporters from MSME category.
- The Government of India's announcement on establishing gold spot exchange could help in India's participation in determining gold price in the international markets.
- The demonetisation move is encouraging people to use plastic money, debit/ credit cards for buying jewellery. This is good for the industry in the long run and will create more transparency.

- India has signed a Memorandum of Understanding (MoU) with Russia to source data on diamond trade between the two countries. India is the top global processor of diamonds, while Russia is the largest rough diamond producer. - Indian Institute of Gems & Jewellery (IIGJ) Mumbai, a project of the GJEPC, has come-up with three-year Graduate Program in Jewellery Design & Manufacturing Techniques with an introduction to Management studies in collaboration with Welingkar Institute of Management.
- In September 2015, the Government of India approved the gold monetisation plan in the form of revamped Gold Deposit Scheme (GDS) and the Gold Metal Loan (GML) Scheme to mobilise tonnes of gold stored in households and temples across the country. ### Road Ahead

- In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

### Restrictions on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated primarily through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DIPP, issued the consolidated FDI Policy by way of circular no. D/o IPP F. No. 5(1)/2016-FC-1 dated June 7, 2016 (“**FDI Policy**”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 6, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, OCBs cannot participate in the Issue.
